

# ENTRY LEVEL GUIDANCE. EZ-GUIDE® 250 DISPLAY.

Case IH the proven leader in GPS guidance technology, is proud to offer the EZ-Guide® 250 lightbar. With an intuitive user interface and a colour screen, the Case IH EZ-Guide® 250 is easy to operate straight out of the box. Plus, you can upgrade to the EZ-Steer® assisted steering system, delivering a total package priced far less than the competition.

### 15 BRIGHT GUIDANCE LEDS

Give you quick visual feedback to keep you on track.

### NIGHT OR DAY USE

Switch to Night Mode for better visibility when working in low light conditions. Mark and locate in-field hazards with feature mapping. Find the next path easily with SwathFinder assistance.

### 11CM COLOUR SCREEN

Choose between plan and 3D perspective views, to see at a glance where you are and what you've been doing.

### USB STICK

Simply transfer your day's coverage maps to your computer using a USB stick and easily print out coverage reports and import/export field and coverage maps via the same USB.

### BUILT-IN GPS RECEIVER

Provides submeter accuracy, or 35-40cm pass-to-pass accuracy with optional antenna.

### ONPATH® FILTER TECHNOLOGY

For improved pass-to-pass accuracy.

### RADAR SPEED OUTPUT

### FIELD FINDER TECHNOLOGY

Automatically locate stored fields as you drive near them.

### GPS DATA OUTPUT

To supply GPS position data to your combine or forage harvester display for yield monitoring.

### SEVEN GUIDANCE PATTERNS

Offers guidance flexibility, allowing you to work in different patterns and shapes that best fit your fields' layout and contours.

# FOLLOWING THE LEADER JUST GOT EASIER... AND MORE AFFORDABLE

## FEATURES AND BENEFITS

### ADDITIONAL ADVANTAGES:

- Add EZ-Steer® 500 for hands-free assisted steering
- Multiple guidance patterns including FreeForm™
- Optional cabling available for radar speed and NMEA output
- Mounts using a simple-to-install RAM mount
- Rugged cast aluminium housing for reliable operation and durability
- Adjustable screen brightness for day or night operation

### MAPPING:

- The Overhead view shows where you are and where you've been
- For a different point-of-view, see the Perspective view
- With the Zoom button you can zoom in to see the detail of skips or overlaps, or zoom out for a complete view of the field you are working in
- Insert a USB stick and easily transfer your coverage maps to your PC for printing

### SIMPLE OPERATION:

- On-screen wizards get you up and running quickly
- The StartUp Wizard removes any guesswork by allowing you to input all the information required to start guidance with a quick and easy, step-by-step process
- Other wizards help set up EZ-Steer® calibration, implement dimensions and new field pattern selections, including: straight, curve, headland, pivot and the new FreeForm pattern

### FUNCTION BUTTONS:

- One-touch function buttons give you quick help and extra how-to information anytime
- The first press of the Info button shows hectares covered, field area and implement width – press again for quick satellite and position updates
- The Help button shows the on-screen help for the view you are working in
